

PRESS RELEASE

Apogee to Host Strategies for Digital Transformation at The Houses of Parliament, London

MAIDSTONE: 03 May 2018

Apogee will be showcasing Strategies for Digital Transformation at The Houses of Parliament, London on Wednesday 30th May 2018.

Attendees will be entertained with special guest speakers along with live demonstrations from Apogee's Professional Services team, covering distinct strategies to transform organisations and their operating processes, mitigating the threats and leveraging the advantages of digital technologies.

The event follows on from the previous success of Apogee's Strategies for Digital Transformation roadshow delivered at the Institute of Directors, London and the Royal Armouries Museum, Leeds. Attendees provided very positive feedback with many highlighting the sessions on transitioning from legacy to digital processes and the practical steps to GDPR as particularly insightful, especially as the GDPR deadline of 25th May 2018 fast approaches.

We are looking forward to presenting attendees at The Houses of Parliament with food for thought as to how their organisations currently operate and the optimisation opportunities available.

With only four weeks to go, to reserve your place at either the morning session at 9.30am or the afternoon session at 1.30pm please visit www.apogeecorp.com/events. Alternatively, please call 01622 358 489 or email events@apogeecorp.com.

Notes to editors

About Apogee Corporation

Apogee is the largest independent managed services provider of print and document technology and outsourcing services across the UK and Europe.

Our reputation as the first choice provider for multi-vendor print technology and service is built on the unique approach we have taken to Managed Services, pro-actively monitoring our clients to maximise their uptime, and the innovation we employ to maintain a portfolio of services which differentiate us. Alongside our industry leading Managed Services, we also provide Digital Document Services which includes our own in-house team of fully qualified engineers who work around the clock to provide true 24/7 outsource print capabilities. We are the only company in the UK who specialise in the provision of both in-house and outsource complete document solutions. Further information can be found at www.apogeeCorp.com
