

Shaping the Future with Packaging

A conference by Intergraf and FTA Europe
with Smithers

9 and 10 March 2023, Hotel Le Plaza Brussels

Content

Shaping the Future with Packaging will look at the European packaging market, in which innovation and creativity abound. This event is a 'must-attend' for anyone with an interest in this vibrant sector. Participants will hear from expert speakers on a range of packaging-related topics – from sustainability, food contact materials, and product design, to EU policy, and more.

Programme

This conference will take place on **Thursday 9 March (afternoon)** and **Friday 10 March (morning)** at the **Hotel Le Plaza Brussels** (Boulevard Adolphe Max 118-126). A networking dinner will be organised on 9 March.

Market report

For each event in this series, our market research partner, Smithers, provides exclusive data. **Shaping the Future with Packaging** will be accompanied by the **European Packaging Market Report 2023**, presenting an overview of the conference alongside Smithers' market analysis. All attendees will receive this report free of charge as part of the conference package.

Event series

Shaping the Future with Print is an event series organised by **Intergraf** with **Smithers**. Each conference focuses on a different sub-sector of the European printing industry, so we periodically collaborate with other organising partners – such as **FTA Europe**. As well as packaging, previous events have focused on books, commercial print, magazines, and direct mail.
